**Introduction:**

DI uses a system for student identification to identify students' permanent records, such as the transcript, registration, grade reports, enrollment certifications, student accounts, etc. This is known as the student ID number and is required for any inquiries the students make. The ID number is a permanent unique identifier for each student assigned upon applying to DI and remains permanently.

**Policy Statement:**

**ID Number Assignment:**

Each student is given an 8-digit Student Identification Number. This number can be found on the Student ID Card and the Student Information System (SIS), it will be used to identify academic records, request of certain DI services, and inquiries the student makes regarding their DI status.

The ID number is comprised of two parts, the year of applying to DI and a serial number that identifies that student in that year.
